SITUATION SUMMARY

Significant Events – National

FBI seeks local law enforcement aid against homegrown ISIS threat

(CNN)—The New York Police Department and other law enforcement agencies around the nation are increasing their surveillance of ISIS supporters in the U.S., in part to aid the FBI which is struggling to keep up with a surge in the number of possible terror suspects, according to law enforcement officials. The change is part of the fallout from the terrorist attack in Garland, Texas earlier this month. The FBI says two ISIS supporters attempted a gun attack on a Prophet Mohammad cartoon contest but were killed by police. One of the attackers, Elton Simpson, was already under investigation by the FBI but managed to elude surveillance to attempt the foiled attack. FBI Director James Comey told a group of police officials around the country in a secure conference call this month that the FBI needs help to keep tabs on hundreds of suspects. As a result, some police agencies are adding surveillance teams to help the FBI monitor suspects. Teams of NYPD officers trained in surveillance are now helping the FBI's surveillance teams to better keep track of suspects, law enforcement officials say. NYPD Commissioner William Bratton has said he wants to add 450 officers to the force's counterterrorism unit, partly to counter the increasing domestic threat posed by ISIS sympathizers. The same is happening with other police departments around the country. The Los Angeles Police Department's counterterrorism unit is also beefing up its surveillance squads at the request of the FBI, law enforcement officials say. Comey said at an unrelated news conference Wednesday that he has less confidence now that the FBI can keep up with the task.

Significant Events – International

Singapore Airlines jet loses power in a storm

(CNN)---A Singapore Airlines Airbus A330-300 with more than 180 passengers on board temporarily lost power to both of its engines as it passed through a storm, the airline has said. Flight SQ836 was en route to Shanghai from Singapore on Saturday when it "encountered bad weather at 39,000 feet about three and a half hours after departure," a spokesperson for the airline told CNN Wednesday. "Both engines experienced a temporary loss of power and the pilots followed operational procedures to restore normal operation of the engines. The flight continued to Shanghai and touched down uneventfully at 10:56pm local time," the spokesperson said. The spokesperson added that both engines were thoroughly inspected and tested upon arrival in Shanghai with no anomalies detected. According to Flightradar 24, the problem caused the Airbus to descend 13,000 feet before the crew was able to power up the engines -- though Singapore Airlines did not comment on this. The carrier said it was in the process of reviewing the incident with engine manufacturer Rolls-Royce, as well as Airbus. Airbus could not be reached for comment at this stage. The airliner was carrying 182 passengers and 12 crew.

SITUATION SUMMARY

SPILL: 15-2954 – Train Derailment, City of Commerce, Los Angeles County

- On 05/28/15 at 0200 hours, three intermodal rail cars derailed upright and leaning during a shoving operation inside of the East Railyard in the City of Commerce, Los Angeles County.
- One of the three mainlines is impacted.
- The rail car were empty at the time of the derailment. There was no release of hazardous materials.
- The California State Warning Center made all appropriate notifications per the Hazardous Materials SOP.

SPILL: 15-2943 – Tar Balls, Manhattan Beach, Los Angeles County

- On 05/27/15 at 1241 hours, the California State Warning Center (CSWC) received a report indicating a tar-like substance was observed on Manhattan Beach, Los Angeles County.
- Per the Los Angeles County Office of Emergency Management, via the Los Angeles Cal OES OA ESC:
 - According to County Fire, National Response Organizations, DFW, OSPR, USCG, County Fire Health Haz Mat, County Fire, Beaches Public Health, EMS responded to scene.
 - The situation is still being assessed and there is no responsible party identified at this time.
 - Currently, small tar balls have washed up on the shore at Manhattan Beach between 26th and Strand.
 - The spill appears to be over a 3-4 mile wide area. The tar balls have been located in spotty locations throughout that exposure area. There does not appear to be a high volume of tar balls. There is no further appearance of an oil sheen in the water and there are no life safety issues at this time.
 - The beach area has been closed and Public Health is placing signage indicating the closure of the beach area.
 - LA CO Public Health officials are advising residents to avoid contact with the water, wet sand, and any materials washed up on shore in the area.
 - Beach users are advised to stay out of the water until the contaminated areas of the beach have been cleaned and the advisory is removed. Dry areas of the beach are not affected by this advisory.
 - There is no request for assistance to the Operational Area and OEM is monitoring the situation.
- On 5/27/15 at 2229 hours, Chevron advised they were responding to the area after a request from USCG to help identify and possibly mitigate a release on 2 miles of beach front, tar balls have been reported in the water and sand, this is per their agreement with the USCG.
- The CSWC briefed the Cal OES EDO, FDO, and SDO and made a full notification pursuant to our Hazardous Materials SOP.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

- On 05/19/15 at 1243 hours the California State Warning Center received a report from the Santa Barbara County Fire Department indicating that a ¼ mile sheen was observed off of Refugio State Beach, near Goleta, Santa Barbara County.
- On 05/19/15 at 1510 hours the NRC reported that Plains All American Pipeline advised that crude oil was discovered to be coming out of a transmission pipeline at a Culvert under Highway 1. Contractors responded to scene and the action line was shut in.
- The source of the spill was capped at approximately 1500 hours on 05/19/15, but a significant amount of oil reached the ocean at Goleta.
- Mission opened in Cal EOC: **2015-05-19 Santa Barbara Refugio Oil Spill Incident.**
- The CSWC conducted all appropriate notifications, including but not limited to local government agencies.

Proclamations

- Governor Brown Declares State of Emergency in Santa Barbara County to Assist Oil Spill Response.
- <http://gov.ca.gov/news.php?id=18967>
- A Proclamation from Santa Barbara County has been received. The County is not requesting CDAA at this time.
- On 05/22/15 City of Goleta submitted a Proclamation of Local Emergency. The City is not requesting CDAA at this time.
- On 05/23/15 the University of California Santa Barbara submitted a Proclamation of Campus Emergency with no requests at this time.

Activations

On 05/27/15:

- The State Operations Center is activated at Level 1.
- The Southern Region Emergency Operations Center (REOC) is activated at Level 1.
- Santa Barbara EOC is activated at Level 3.
- The EOC is being used for the ICP, and has an Operational Period of 24 hours – 0600 to 0559 hours.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Deployments

- Unified Command
 - Federal on Scene Coordinator: US Coast Guard (USCG) & the Environmental Protection Agency (EPA).
 - State on Scene Coordinator: CA State Parks & CA Fish and Wildlife (CDFW).
 - Local on Scene Coordinator: Santa Barbara County Office of Emergency Management (OEM).
 - Tribal Coordination: Santa Ynez Chumash Tribe, Owl Clan Consultant representing the three Clans: Barbareno, Coastal and Southern Owl.
 - Responsible Party: Plains All American Pipeline LLC.
- Cal OES Deployments
 - Southern Deputy Regional Administrator
 - One ESC from Cal OES Southern Region, Ports and Harbor Representative
 - Two (2) ESC from Cal OES Southern Region, Agency Representative
 - One ESC from Cal OES, Subject Matter Expert (SME) on Individual Assistance (IA)
 - Three (3) Cal OES PIO
 - Region I Fire and Rescue Assistant Chief

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Responding Agencies

Federal

- USCG, Pipeline and Hazardous Materials Safety Administration (PHMSA), EPA, US Fish and Wildlife, and NOAA.

State

- Cal OES, CA State Parks, Cal OSPR, CA Fish and Wildlife, Cal Volunteers, California Conservation Corps, and California Coastal Commission.

Local

- Santa Barbara County OEM, Santa Barbara County Fire Department, Santa Barbara Sheriff's Office, Owl Clan Consultant representing the three Clans: Barbareno, Coastal and Southern Owl, Santa Ynez Chumash Tribe , and the Gaviota Police Department.

Beach and Campground Closures

- Refugio Beach camp ground and El Capitan state beach will remain closed through 06/04/15 or until deemed safe and staged equipment is removed.

Road Closures (Lane Reduction)

- Highway 101 – The shoulder of highway 101 is intermittently closed for clean-up vehicle parking.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Tribal

- Per the Cal OES Tribal Liaison:
 - The Santa Ynez Chumash Tribe (a Federally recognized Tribe) is now impacted and has sent a representative to the ICP.
 - The representative is the cultural monitor for the Tribe.
 - The Cal OES Southern Region ESC and Tribal Advisor, are in close contact with Santa Ynez Chumash Tribe to ensure proper consultation with the Federally recognized Tribe.
 - Cal OES Tribal Advisor reached out to the consultant for the three Non-Federally-recognized Clans (Barbareno, Coastal and Southern Owl) , and confirmed she is working directly with the Unified Command group to ensure that the three clans cultural sites are being protected.
 - A Southern Owl Clan member contacted the State Historic Preservation Office (SHPO) and CA Native American Heritage Commission (CNAHC) advising them that these clans have cultural sites in the impacted zone of this event.

Health and Medical

- California Department of Fish and Wildlife closed affected fishing areas.
- Center for Toxicology & Environmental Health, LLC (CTEH) is conducting air monitoring. There have been no reports of inhalation concerns and no records of chemicals that could cause long term health effects. No reports of injuries from public or responders.

Economic Impacts

- The Cal OES Southern Region and Individual Assistance Branch staff are coordinating the collection of data related to the economic impacts to locals businesses due to the oil spill. Cal OES has forwarded the Estimated Economic Injury Worksheet for Businesses to Santa Barbara County OEM staff to assist with this effort and determine if businesses within the County qualify for Economic Injury Disaster Loans (EIDLs).

Third-Party Claims

- A Third-Party Claims telephone number has been established for businesses and others to report economic losses or costs due to the oil spill. Claim Phone Number: 866-753-6391. To date, no claims have been reported to the National Pollution Fund Center.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Environmental Impacts

- Fishery Closure area expanded and now extends from Canada de Alegeria at the western edge to Coal Oil Point at the eastern edge and out to 6 miles seaward.
- California Department of Fish and Wildlife submitted a declaration of Fishery Closure on 05/21/15 due to a public health threat caused by the oil spill. OSPR has ordered a ban on fishing and the taking of shell fish in the spill area.
- The following areas have been cleared by cleaning crews:
 - Gaviota Creek
 - El Capitan Creek
 - Las Llagas
 - Tecolote Creek
 - Bell Canyon Creek
 - Deveraux Creek
 - Corral-La Flores Creeks
 - Arroyo Hondo Preserve and Creek
- The following area has not yet been cleared:
 - Eagle Canyon Creek – in progress
 - Refugio Creek (spill site) – boomed

Wildlife

- The Wildlife Care Network continues to conduct wildlife monitoring and recovery efforts.
- As of 1800 hours on 05/26/15, the OCWN has received reports of 49 birds captured, 16 birds DOA (total of 65 birds), 27 mammals captured, and 9 oiled mammal DOA (total of 36 mammals).
- Freshwater lagoon drainages in the affected area have berms installed. Berms remain intact and provide protection for sensitive species from oil.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Pipeline Information

- Per Cal OES Southern Region Emergency Operations Center 1700 hours Situation Report:
 - Per PHMSA, a Corrective Action Plan was submitted on 05/21/15 and will require the Responsible Party to remove all oil from the pipeline within 10 days.
 - To date, 550-600 barrels of product has been removed from the pipeline which is equivalent to approximately 23,100-25,200 gallons.
 - The investigation of the pipeline will be ongoing for approximately four (4) months
 - The exact amount of oil release is unknown but is estimated between 31,000 gallons to 105,000 gallons as a worst case scenario.
 - The worst case scenario spill volume has been reduced based on the amount of oil recovered from the damaged pipeline. The new worst case scenario volume is estimated at 101,000 gallons.
 - Unified Command approved the plan to remove section of the ruptured pipe on 05/25/15. Work on the pipe has started and they have removed soil above the suspected breaking point.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Response and Clean Up Efforts

- Per Cal OES Southern Region Emergency Operations Center 1700 hours Situation Report:
 - Approximately 24.61 miles of shoreline have been investigated. This investigation revealed the following levels of impact from the oil spill:
 - 41.8% light oil impacts
 - 21.1% moderate oil impacts
 - 21.5% heavy oil impacts
 - 15.7% no impact from the oil spill
 - Nearly 10 miles of coastline has been impacted from Gaviota to Coal Oil Point and about 30 miles offshore.
 - 12 sites have been identified as sensitive, all have been boomed.
 - The majority of oiling is located on beaches and in cobble riprap, between Arroyo Hondo and two (2) miles east El Capitan Beach. Additional pooling of oil exists east of the railroad tracks down to a depth of 30". These areas have been targeted for light mechanical and manual removal.
 - 10,060 gallons of oily water mixture have been collected offshore. The remaining offshore oil exists within a thin sheen reducing the amount that can be collected via skimmers; therefore, offshore oil collection activities have been minimized.
 - Onshore oil cleanup continues.
 - In addition, the following have been collected onshore:
 - 1,095 cubic yards of oily vegetation
 - 440 cubic yards of oily soil
 - 1,720 cubic yards of oily sand
 - 103 cubic yards of oiled equipment (including gloves, masks, Tyvek, etc.)
 - 2,140 cubic yards of oiled debris
 - Approximately 2,240 feet of hard boom and 1,840 feet of absorbent boom for a total of 4,080 feet of boom currently deployed.
 - US EPA is reviewing options for cleaning the cobbled beach areas.
 - Clean up efforts continue on a 24 hour schedule.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Resources

- Per Cal OES Southern Region Emergency Operations Center 1700 hours Situation Report:
- As of 1800 hours on 05/26/15, there are a total of 938 personnel from all organizations currently responding to the incident. There are 282 personnel in the ICP and 656 in field operations.
- There are currently 24 vessels and 1 crane barge with tug available to the incident to assist with the response. These vessels are being utilized to perform boom and skimming operations offshore. Vessels not currently in use are being staged in the Ventura Harbor.
- Approximately 2,240 feet of hard boom and 1,840 feet of absorbent boom for a total of 4,080 feet of boom are currently deployed. A total of 10,080 feet of boom is deployed and available at the incident.
- There are 2 contracted aircraft deployed to this incident.
- Five Shoreline Clean Up Assessment Teams (SCATs) have been surveying shoreline to assess extent of impact and determine best method of clean up.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Volunteers

- Cal OES continues to coordinate volunteer activities with Cal Volunteers, OSPR, the City of Santa Barbara, Santa Barbara County OEM, the University of California Santa Barbara and Chumash Tribe representatives. An Emergency Volunteer Center is being established and hazmat training is being provided to volunteers.
- Cal OES deployed staff helped coordinate a volunteer beach cleanup event held on 05/26/15 at Goleta Beach. Approximately 20 trained volunteers dressed in Tyvek outfits assisted with the cleanup of oily debris located in the beach area. These volunteers received 4 hours of health and safety (Hazmat) training prior to participation in this event.
- Today Cal OES deployed staff helped coordinate and attended a community volunteer beach cleanup at Haskell's Beach. The event took place from 1300 to 1700 hours. Approximately 40 volunteers were present. Media was also in attendance.
- As of today at 1100 hours a total of 900 applications to volunteer to assist in beach cleanup have been received.
- An additional 170 volunteers have registered to attend health and safety training scheduled for Thursday, 05/28/15 in anticipation of participating in the beach cleanup scheduled for Saturday, 05/30/15.
- There are two health and safety training sessions scheduled for Thursday, 05/28/15 for registered volunteers. The sessions will be held from 0800-1200 and 1300-1700.
- The Saturday, 05/30/15 beach cleanup event is scheduled to occur from 1300-1700. The location for this event has not been confirmed.
- Cal OES deployed staff will continue to assist in the coordination of these events. Community CERT and Spontaneous Volunteers are being trained and utilized for the beach cleanup efforts. Deployed Cal OES Southern Region staff prepared a briefing regarding volunteer coordination efforts related to this incident which was then presented by OSPR 05/26/15 at Santa Barbara County Board of Supervisors Meeting in Santa Maria.
- The public can assist by visiting this website <https://calspillwatch.dfg.ca.gov/Spill-Archive/Refugio-Incident/Volunteer> or by reporting oiled wildlife by calling 877-UCD-OWCN (not a volunteer line).
- OSPR's Convergent Volunteer toll free hot-line has been activated for information only.
- There are a reported 9 volunteers working in the field.
- Two (2) Santa Barbara County CERT members are providing logistical support to the Santa Barbara EOC/ICP.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Public Information

- Press conferences are scheduled through the weekend at 1400 hours.
- Joint Info Center (JIC) has been established.
- OSPR has an incident website that the JIC will be posting information to.
 - JIC WEBSITE: <http://www.refugioresponse.com>
 - Future media inquiries regarding Refugio State Beach oil spill should call: **805-696-1188**.
- A Third-Party Claims telephone number has been established for businesses and others to report economic losses or costs due to the oil spill: 1-866-753-3619.
- Cal OES JIC staff have been working in coordination with JIC leadership and Unified Command to schedule a community open house regarding the oil spill response. The open house will be held on Saturday, 05/30/15 from 1100-1400 hours at the Elks Lodge #613 located at 150 North Kellogg Avenue, Santa Barbara.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- There are no significant Watches or Warnings in effect at this time

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry and warmer weather will prevail across the interior through Saturday as a high pressure ridge builds across the area. Sunday an upper level trough will bring cooler temperatures inland and some light showers or thunderstorms are possible.

Medford Weather:

Upper level ridging will move over western Oregon today and remain through Friday before moving east next weekend. Things are on track for very warm temperatures today through the early part of the weekend with highs for the rogue valley around 90 today through Saturday. This is around 15 degrees above seasonal norms for this time of the year. There is some instability this afternoon but only enough moisture near Crater Lake and the Fremont Mountains of eastern Klamath County to warrant any mention of thunderstorm chance. There will be a subtle change on Friday to bring in very high perceptible water (around 1 inch) northward from the Sacramento valley into area of the cascades. This should add enough fuel to the instability factor for more showers and thunderstorm development. The atmosphere will be even moister on Saturday and these storms have the potential for produce heavy rain underneath the core of the storms. The area from Siskiyou County north into Josephine/Jackson Counties the E-NE into Klamath and Lake Counties as best chance for thunderstorms. These areas however may be refined later today but for now confidence is moderate that SW Oregon could see thunderstorm Friday and Saturday. Confidence is moderate to high that eastern Oregon zones will see storms on both of those days. Interestingly instability is not as high across Modoc County. One potential spoiler is whether more clouds will outrun the instability and shield us from getting enough heating.

Reno Weather:

High pressure will bring a warming trend with temperatures well above average through this weekend. A trough will bring breezy conditions Sunday and Monday with temperatures cooling to near normal by Monday. A few thunderstorms are possible Sunday night and Monday, mainly north of interstate 80.

San Francisco Weather:

High pressure building along the west coast will result in a modest warming trend through Saturday, most apparent inland. Temperatures will then cool Sunday into early next week as a weak upper level trough approaches the coast. There is a slight chance of showers across the North Bay from late Sunday into Monday, but most locations are expected to remain dry through the forecast period.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Daytime temperatures 10 to 15 degrees above normal over the next few days as high pressure slides across the west coast. Cooler early next week with a slight chance of showers and thunderstorms over the northern Sacramento Valley and surrounding mountains as the tail end of a Pacific trough brushes through.

Hanford Weather:

Warming temperatures and mostly clear skies will persist for the next few days as high pressure continues to dominate the region. A cooling trend will take place early next week as the high breaks down and a low pressure system tracks to the north of the region.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

The onshore flow will bring a night to morning marine layer at the coast and some valleys, otherwise fair skies with above normal temperatures into the weekend. A low system will approach on Sunday to increase clouds and cool temperatures to normal for next week.

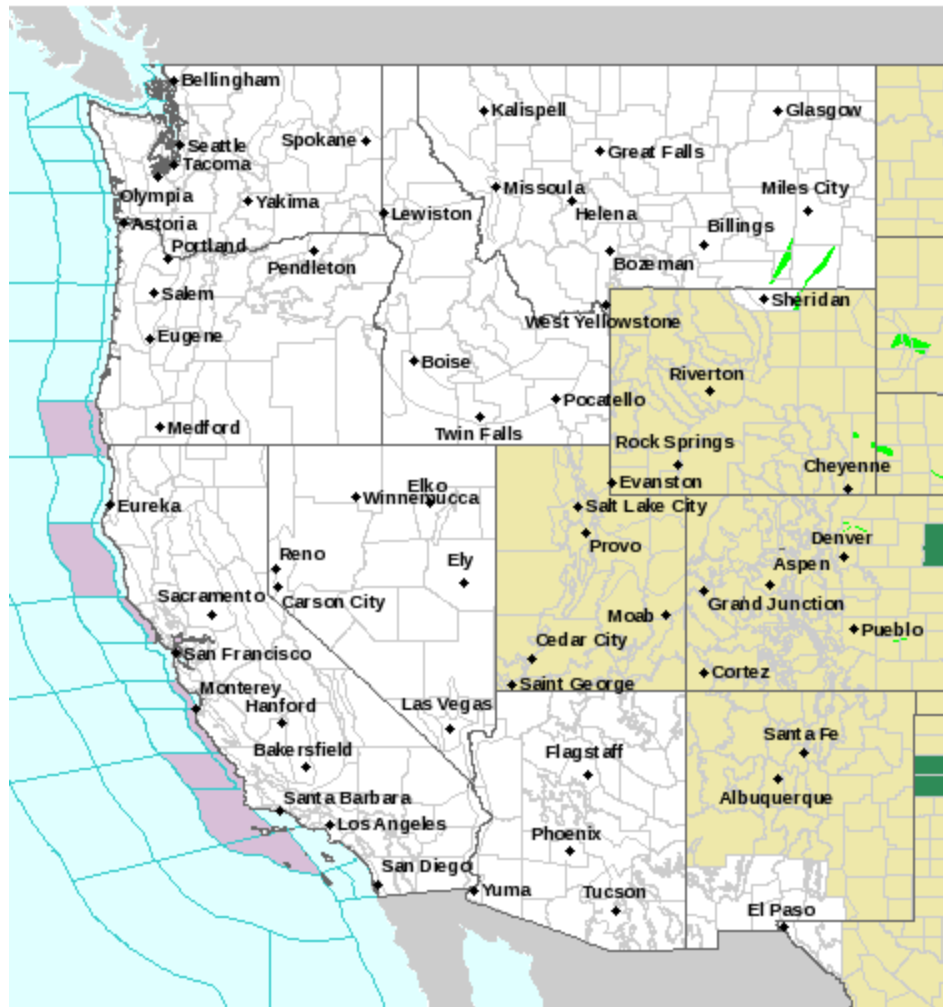

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A ridge of high pressure will bring a shallower marine layer and warmer weather through this weekend. Night and morning low clouds will continue but will be more restricted to the coastal areas. A trough of low pressure will move through the west coast early next week and bring a cooling trend and more widespread low clouds. Other than a chance of coastal drizzle this morning, no precipitation is expected through the middle of next week.

Southeast California Weather:

Hot and dry weather is in the forecast at least through the upcoming weekend. Afternoon temperatures for the lower deserts will warm to between 105 and 108 degrees this weekend, then cool slightly going into next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 57 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 11 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County), City of Porterville (Tulare County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

CAL OES MISSIONS

New Cal OES Missions

- **2015-LAW-12859, 05/28/15 0616 hours**, Sgt. Griffin, Air Force Rescue and Coordination Center (AFRCC) advised and EPIRB is sounding near Long Beach, CA. The Cal OES Law Duty Officer is coordinating.
- **2015-LAW-12849, 05/27/15 1918 hours**, Sgt. Harrison, AFRCC, Locate and Silence a ELT sounding in Los Angeles County near Santa Clarita. Cal OES LDO coordinating resources. 05/28/15 at 0503 hours, AFRCC advises the signal ceased. **Mission Closed.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
